To Whom It May Concern:

Justine Fisher is a very special young woman, and it is my pleasure to write this letter of recommendation. I have known Justine for four years and have watched her develop into an outstanding scholar and citizen.

Justine is a great example of a scholar and leader of our student body. She has taken the most rigorous classes our school has to offer and has also taken advantage of dual enrollment opportunities through the area community college and university. Due to her outstanding academic performance she was selected by the teaching staff to be a member of the National Honor Society.

She has involved herself in many other school activities and organizations outside of the school. She is a two year member of the student council and has done an exceptional job in that role. She also participates in the Business Professionals of America and finished fourth in the nation in the Administrative Support Concepts competition. She is joining new group to our school called Interact which is sponsored by Rotary and she participates in Young Life. It has also been fun to watch her excel at photography. She has been working with our art teacher and is doing some amazing things in this area. I am currently an advisor for our Student Council and have been working a lot with Justine and the other members. She has been very organized, prompt, and is providing outstanding leadership for the group and the entire student body.

Justine's future plans are to attend a college or university and pursue a career in business. I have no doubt that Justine will be successful in this field or any other she should pursue.

Sincerely,

Jill Chaney  
Science Teacher  
Student Council Advisor
